# Hello

Include images from "images" folder

Want to write HTML?

yes, yes you can :)

Stacked slides

Go down

Stacked slides

This is second stacked slide with some code

```
function (who = "world") {
  console.log("Hello " + who + "!");
}
```

Latest version of Highlight.js

ES2015 initial support! \o/

Stacked slides

And the last one

Speaker notes

Hit s on your keyboard to display speaker notes

Slide properties

Look at this shiny hot-pink background!

It has been added on this slide with this $ syntax:

```
$background:#FF69B4$
```

Goodbye

Don't hesitate to give us feedback about prez on GitHub!

Thanks
